Tips from previous programs:

Before you cut, use starch or Best Press on your fabrics.

Cut all your pieces at the beginning, and then lay out the pieces on a design board.

Sew in each box (darker outline in the pattern), and then sew rows together.

On tiny pieces, such as the tree trunk and grass piece in the last box, it is sometimes helpful to sew it larger and trim it down.

If you're unsure about directions, make a sample block first out of scraps.
