1/2" unfinished.

 The Square in a Square Block should be measuring 2 1/2" x 2 1/2" unfinished.

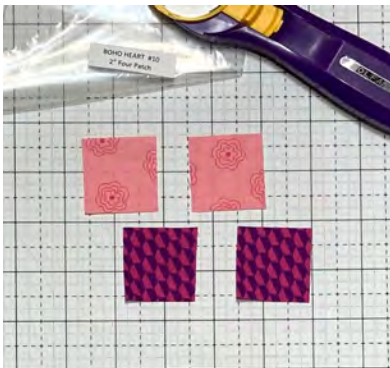

And with that done, we will move onto another small block, the . . .

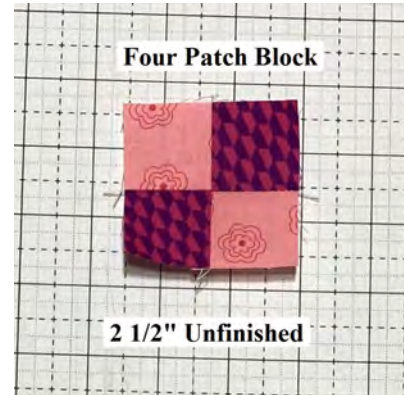

**Four Patch Block**

From your Month #10, Four Patch Bag, cut the fabrics according to page 2 of the supplemental cutting list.

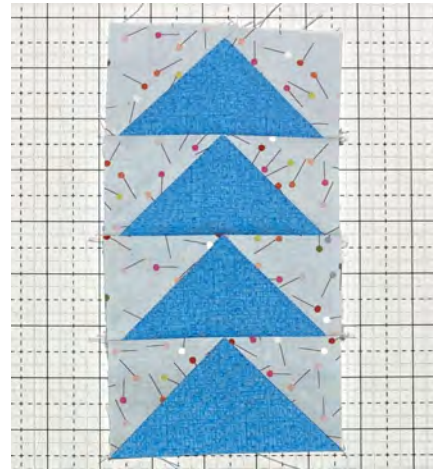

Using the cut pieces and the [Four Patch Block Directions from Month 2](#) make your block. The Four Patch Block should be measuring 2 1/2" x 2 1/2" unfinished.

And now we are going to make a familiar block with a slight modification, the . . .

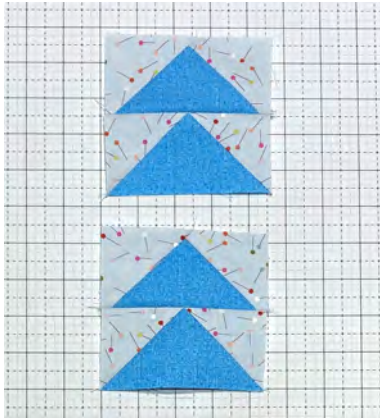

**Flying Geese Block**

From your Month #10, Flying Geese bag, cut the fabrics according to page 1 of the supplemental cutting list.

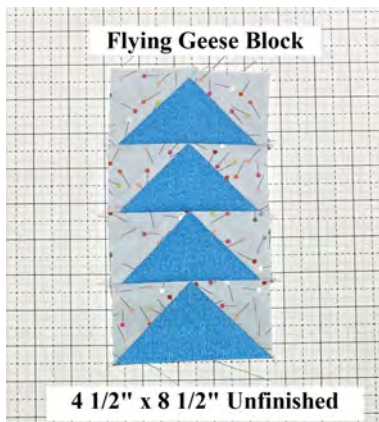

Using the cut pieces and the [Flying Geese Block Directions from Month 4](#), make 2 Flying Geese Blocks that will now be Flying Geese Units. Layout the 2 Flying Geese Units as shown.

Place the bottom unit onto the top unit with right sides together. Align and pin if desired. Stitch a 1/4" seam along the edge of the units, taking care to stitch directly through the center of the Thread X.

And your Block is done and you have a Flying Geese Block that should measure 4 1/2" x 8 1/2" unfinished.

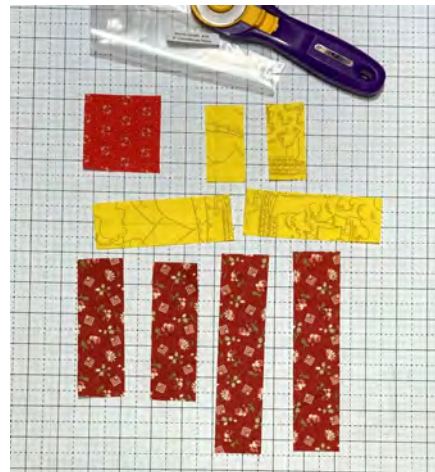

And once again, we are going to make a familiar block with a slight modification, the . . .

### Churn Dash Block

Using the cut pieces and the [Churn Dash Block Directions from Month 1](#) make your block. The Churn Dash Block measuring 6 1/2" x 6 1/2" unfinished.

And for our last block, another familiar block with a slight modification, the . . .

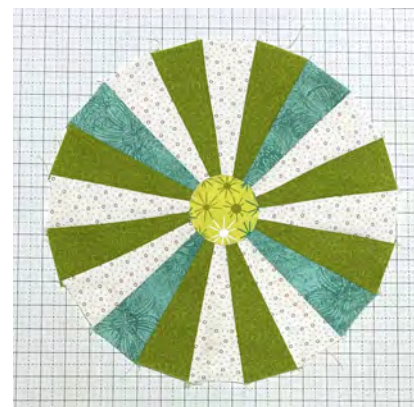

### Centered Dresden Square Block

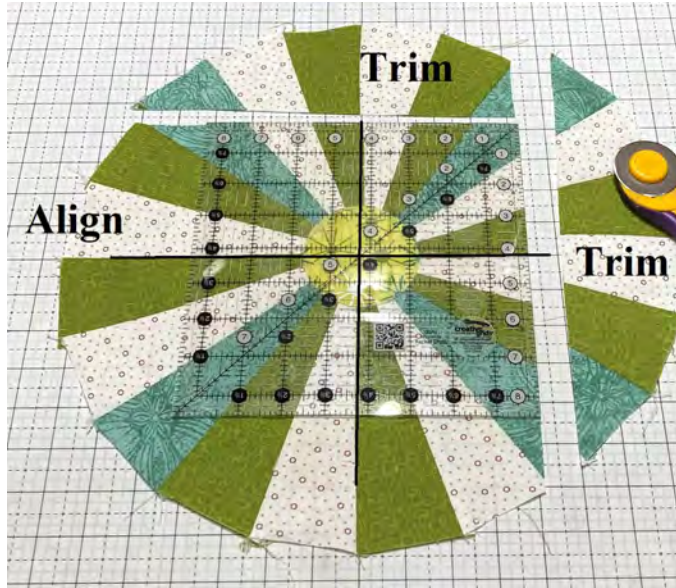

From your Month #10, Centered Dresden Square bag, cut the fabrics according to page 1 of the supplemental cutting list and using the Centered Dresden Square template and the 3" circle template.

Using the cut pieces and the [Dresden Square Block Directions from Month 3](#), make the Dresden Unit to the point of trimming taking care to note the fabric placement. Layout the Dresden Unit as shown.

And all that is left, is to trim the block to an 8 1/2" Square that is centered. To do this, Use a large square ruler (mine is 8 1/2"). Align the ruler so the center lines on the ruler (4 1/4") are aligned with the seam lines of the top and bottom and two side Dresden Plates. Once your ruler is aligned, trim along the right hand side, and top of the ruler.

And now all your Blocks are made and that means it is time to start putting them together, but first, we are going to need some more of those Low Volume Background strips!!

### Cutting Background Strips

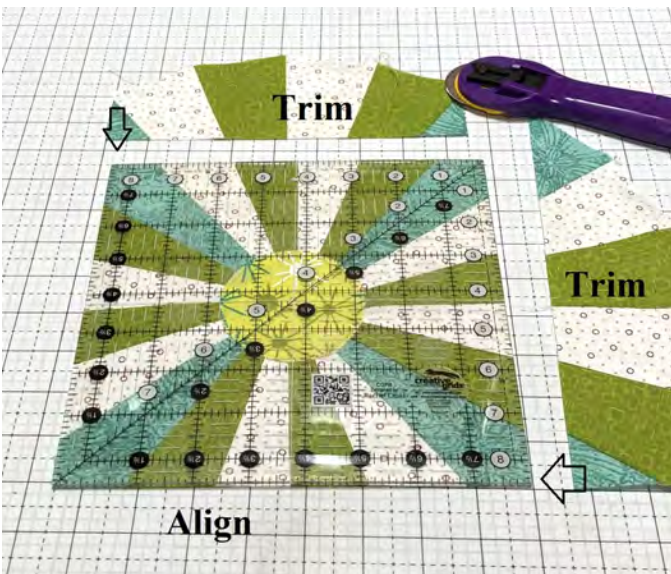

Start by pressing all of your Low Volume Background pieces.

From the Low Volume Strips sent with your Month #10 package, cut the fabrics according to page 2 and 3 of the supplemental cutting list.

Just like Month 1 & Month 4, and Month 7, There is no right or wrong order to number your strips, you can do your low volume strips in any order you like, just make sure that you leave some of the larger strips for the last strips as you will need 3 strips to complete the cutting for 67 & 68.

Also, most importantly, once you have cut all the pieces from one fabric, take care to keep them together and marked with the Number of that vertical row/fabric. You are cutting the strips for Month 10,11 and 12 so you will be keeping these grouped and marked for some time.

Now rotate the block 180 degrees on your cutting mat. Align the ruler on the Dresden Unit so that the 8 1/2" lines are along the edges you just cut. Once aligned, again, trim along the right hand side, and top of the ruler.

And just like that, you have an Offset Square Dresden Block that should measure 8 1/2" x 8 1/2" unfinished.
