

Downtown Month 4 (Old Country Church and Cross Street)

Biggest Tip I have for this block is to double the number of cuts for the buildings on the pattern. The pattern gives the number of cuts needed for 1 building, but you are working on 2. Pay attention to instructions for adding Piece E5.

General Tips for Paper Piecing:

1. Fabrics are right side face up on opposite side from printed side. Laser ink can sometimes run onto the fabric so you always want to be sewing on the printed side and keep the good side of the fabric on the opposite side.
2. I use a fabric pencil to mark the sections so that I make sure I am picking up the correct fabric.
3. If you cannot see through the paper, fold the sew lines. This helps to judge that the fabric will cover the entire space. I always mark $\frac{1}{4}$ " of where I start. Also trimming along the outer edge (include seam allowance), will help judge full coverage.
4. Make your stitch length is smaller so it is easier to remove the paper later. I usually click the down button twice. I would do the smallest where you could rip out the seam if you had to.
5. When trimming blocks, make sure you keep the seam allowance along the outside of the block.
6. This has a lot of small pieces. I suggest go slowly and making sure you are right on the lines to get the best results.

In case of error: Before ripping out the seam, place a piece of tape over the area that you will be ripping out on the printed side of the paper. This will keep the paper intact so that it won't start ripping until you are ready to remove the paper. I use Scotch tape. Thicker tape will make it hard to remove the paper later.

Note: A1 (good side up) is underneath.

For the building, there will be nine sections. H and I do not require any piecing.

Right Window:

1. To start, Measure $\frac{1}{4}$ " from Piece A1 towards the A2. Make a crease in the paper. This will give you the $\frac{1}{4}$ " seam allowance to start off the first piece.
2. Align Piece A1 right side up and Piece A2 wrong side up along the crease.
3. Sew on line between A1 and A2.

When adding pieces, make sure it will cover the entire area when flipped. Some will be centered but not all of them. All references to "card" refer to thick paper that helps "catch" the Add-A-Quarter edge.

Roof:

1. To start, Measure ¼" from Piece E1 towards the E2. Make a crease in the paper. This will give you the ¼" seam allowance to start off the first piece.
2. Align Piece E1 right side up and Piece E2 wrong side up along the crease.

9. In order to get the correct angle for Piece E5, place Piece E5 so it covers the area with ½ seam allowance going around E5. I used removable restickable glue to keep the piece in position. Trim Piece E5 ¼" from E5/E4 line within the E4 area. Not the same way you trimmed E4.
10. Add Piece E5. **Make sure it covers the E5 area when flipped. You may have to adjust due to angle.**
