# JOURNEY TO THE STARS

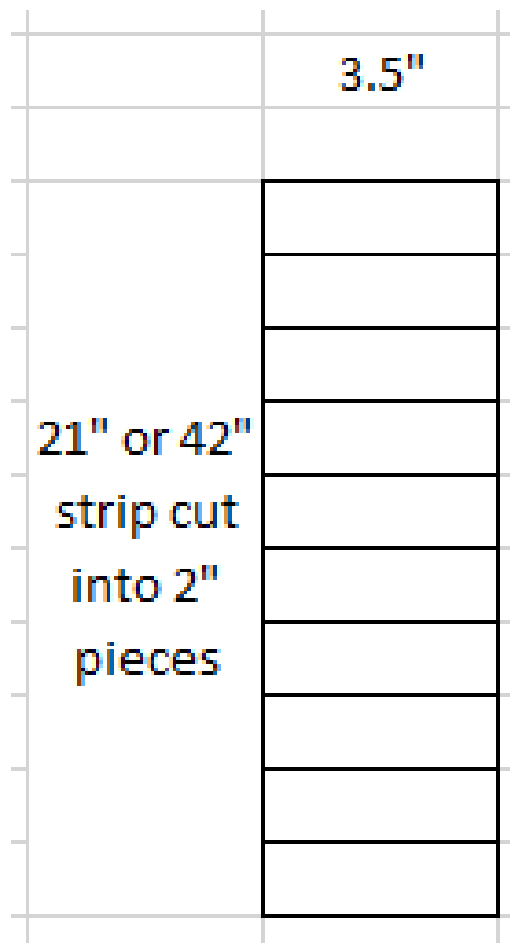

## MONTH 2 INSTRUCTIONS

The month 2 pattern instructions call for you to make 336 light rails and 204 dark rails. To make the program more manageable for you, we are sending enough fabric for three months of rails. You will actually be making 169 light and 125 dark from this packet. 40 light and 36 dark are needed for month 2, 108 light and 90 dark for month 3, and 21 light and 9 dark for month 4. In months 5 and 8, you will get the remainder of your rail fabrics.

### CUTTING METHOD CHANGE:

To make your fabric still have enough variety, without getting it all in one month, you will need to trim your long strips to 3.5" wide, then subcut into 2"x3.5" pieces. Mix up your fabrics into pairs that look good to you, and sew together to make the number of rails given above.

After you've made all your blocks, bag up months 3 and 4 and put them in a safe spot - you'll need them. In those two months, you will receive your fabric for stars as well.

If you have any questions,  
or need a better clarification,  
please call or email me.
